PROMO CUTTING TOOLS

Highly productive multi application taps (DIN)

DORMER PRAMET

Introducing Dormer E697 and E698 taps – the epitome of versatility and performance. Engineered for 2.5xD tapping depth with a specific geometry to conquer medium to high strength materials while preventing oversized threads in softer ones. The modified edge treatment ensures a long tool life with consistent results, and the 3-radii flute profile provides precision and process security. With a TiCN coating for wear resistance and a unique powder metallurgy substrate, Dormer E697 and E698 taps deliver high performance without compromise.

- **EXCELLENT IN STEELS**
and versatile for a variety of other materials
- **EXTENDED TOOL LIFE**
and long term consistency
- **HIGH PROCESS RELIABILITY**
secured by nesting prevention
- **COLD WELDING PROTECTION**
throughout the whole life span
- **HIGH PERFORMANCE**
without compromise on tool life.

Versatile solid carbide drills with TiN tip

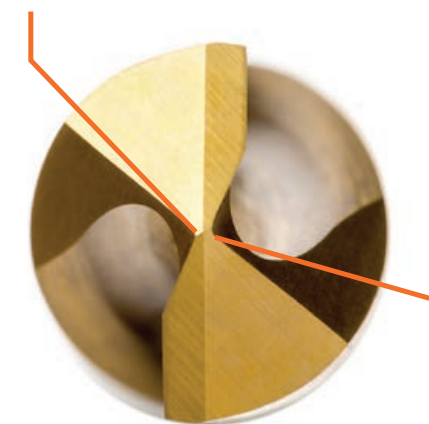

DORMER PRAMET

Introducing Dormer R003 – new general purpose, versatile solid carbide jobber drills with a TiN tip coating. New design features result in excellent tool life, low cost per hole and high tool life consistency. The Dormer R003 also offer low thrust force making them versatile for both CNC and conventional machines operations.

- **REDUCED THRUST FORCE**
eases the operation whilst maintaining precision.
- **EXTENDED AND CONSISTENT TOOL LIFE**
provides cost-effective reliability.
- **MULTIPLE REGRINDING POSSIBLE**
without loss of chip evacuation performance.
- **VERSATILE USAGE**
on both CNC and conventional machine

Optimized 120° point geometry with four-faceted split point
